EDUCATION

HELWAN UNIVERSITY 2019 - 2024 communication and electronics engineer Bachelor's Degree Cairo, Egypt

EXPERIENCE

TAQAT TECHNO | Frontend Developer July 2025 – Present

- Develop and customize web interfaces using JavaScript, XML, and QWeb to enhance user experience and meet client-specific business requirements.
- Collaborate with backend developers and functional consultants to integrate frontend features with Odoo modules, ensuring responsive design and seamless user interaction.

TIMEDOOR ACADEMY | Web-developer Instructor August 2024 – Present

- Designed and delivered web development courses on HTML, CSS, and JavaScript.
- Focused on responsive design and front-end development, teaching students the fundamentals of user interfaces and user experience.
- Led projects where students built interactive, responsive web applications, enhancing both their coding and design skills.

FREELANCE | Frontend Developer July 2024 – Present

- Developed dynamic and responsive web applications for various clients using React.js and Vue.js.
- Collaborated with clients to understand their needs and deliver high-quality, user-friendly interfaces.
- Optimized web performance and enhanced accessibility for better user experience.
- Integrated APIs and third-party services to improve application functionality.
- Worked with modern UI frameworks like Tailwind CSS and Ant Design to create visually appealing designs.

HUAWEI | IT Solutions Engineer Cairo, Egypt | April 2025 – July 2025

- Assisted in the design, deployment, and optimization of Huawei Data Center solutions, supporting infrastructure projects involving servers, storage systems, and cloud technologies.
- Collaborated with senior engineers to provide technical support and documentation, contributing to solution architecture, client presentations, and performance evaluations.

NTI (NATIONAL TELECOMMUNICATION INSTITUTE) | Intern - MEAN Stack Training Cairo, Egypt |
Dec 2024 – Feb 2025

- Developed web applications using the MEAN (MongoDB, Express.js, Angular, Node.js) stack.
- Gained hands-on experience in full-stack development and REST API integration.
- Enhanced problem-solving and coding skills through real-world projects and mentorship.

SKILL

- React JS • Vue JS • Bootstrap • JavaScript
- HTML • XML • QWeb • GitHub

PROJECTS / OPEN-SOURCE

RELIEF CENTER | [Link](#)

HTML , JavaScript , Python , SCSS , XML

- Built and customized **Odoo Website themes** for Relief Center, delivering a responsive, branded UI across key pages (Home, Emergencies, Knowledge Hub, Blog).
- Implemented **RTL/bilingual-friendly frontend** structure (Arabic/English) with reusable website snippets and consistent styling.
- Developed **Python (Odoo) backend enhancements** to support website content publishing and dynamic data-driven sections.

INDOQAT | [Link](#)

HTML,SCSS,Javascript,QWeb,XML

- Developed and customized **Odoo 17 website modules** to support dynamic content, multi-language data, and backend integration.
- Leveraged **Odoo developer mode and QWeb templates** to fetch and display dynamic data from the backend efficiently.
- Applied **best practices in XML templating, t-tags, and QWeb expressions** for maintainable and scalable website customization.

PAW-PAL | [Link](#)

HTML , ReactJs , SASS

- Built a **React + Vite** pet management app and a separate **Admin Dashboard** with scalable architecture (components/layout/features, hooks, context, services).
- Implemented full **CRUD management** for Users, Pets, Pet Types, Pet Breeds, and Admins with reusable **DataTable**, modals, validation, and pagination.
- Delivered production-grade UX improvements: **debounced search (useRef)**, skeleton loading on every fetch, responsive sidebar/tables/modals, and disabled controls during loading.
- Integrated backend features including **JWT auth**, role-based admin flow, **file upload (multipart)** with private-bucket **signed URLs**, cascading dropdowns (Pet Type → Breed), and robust error handling (e.g., 409 conflicts).

AI-IOT SYSTEM FOR PLC CONTROLLED FACTORIES | [Link](#)

HTML , JavaScript , Reactjs , CSS

- Developed a monitoring system application with user authentication and dynamic data fetching.
- Implemented responsive design to ensure optimal functionality across devices.
- Utilized React hooks and context API for state management.

PEARL PIXELS | [Link](#)

HTML,SCSS,Javascript,XML

- Developed and deployed custom Odoo 17 website carousels with RTL/LTR support.
- Extended QWeb templates through inheritance to add flexible UI attributes.
- Optimized frontend widgets using JavaScript for smoother UX.
